

LEVEL CROSSING REMOVAL UPDATE

HURSTBRIDGE LINE
HEIDELBERG | ROSANNA
NOVEMBER 2017

The Victorian Government is removing two dangerous and congested level crossings along the Hurstbridge line, building a brand new Rosanna Station, and duplicating the single section of track between Heidelberg and Rosanna. This will make communities safer and get commuters in Melbourne's north east home sooner.

Works in November and December in Heidelberg and Rosanna will be significant as we gear up for a major construction blitz in early 2018.

In Heidelberg, we're continuing work on the Burgundy Street bridge and tunnelling the new underpass next to the existing Darebin Street tunnel.

In Rosanna, we're building the foundations and lift bases for the new station and constructing a retaining wall for the new rail bridge.

In the coming months, construction activities will continue in and around the railway line in Heidelberg and Rosanna from Monday to Sunday, 7am to 7pm. However, there are times when work will need to take place outside these hours.

We will notify surrounding residents when night works are planned.
